

### OLD DR. JACOB TOWNSEND. Genuine Townsend Sarsaparilla.

Old Dr. The useful is now about 70 years of agr. and has long been known as the AUTHOR and DISCOVERER of the GUNUNF ORIGINAL. TORSOVEND ASSAULT Being poor, he was compelled to limit its manufacture, by which means it has been kept out of mythet mouth its water, by which means it has been kept out of mythet and the sales circumstibled to those only who had proved its worth, and known its water. It had reached the ears of many, nevertheless as those percents who had been heated of sore diseases, and raved from death, proclaimed its excellence and wonderful.

HEALING POWER. HEALING POWER.

Knowing, many sears ago, that he had, by his skill, stence and expe in nor, devised an article which would be of incellerable edwantage to mankind when the means would be fornished to bring It into universelection, when its inextinable virtues would be known and appreciated. This time has come, the means are explicit; this GRAND 2ND UNEQUALIED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

If as it is found incapable of degeneration or determination.

Unilke young S. P. Townsend's, it improves with age,
and never changes, but his the better; because it is prepared on scientific principles by a secondiff men. The
historic smoothedge of Chemistry, and the Intest discoveiths of the art, have all been brought interprincions in
the manufacture of the Old Dr's Sursayardly. The Surepartilla roof, it is well known to medic-1 men, comboins
many medicinal properties, and some properties which
are inset or treless, and others, which is trained in
preparing it for use, produce formed-ties and end,
which is hijarious to the system. Some of the properties of Sursayardlia are so winatile, that they entrely
evaparate and are look in the preparation, if they are not
preserved by a secretific process, known only to those
apprisers of in its machiliato e. Moreover, these solutile principles, which fly off in vapar, or as an exhalation, under heat, are the very exception medical properties of the roof, which give so it all its value.

Any person can had or stew the roost dill they get a

Time Medicine has acquired a very ex-tended and established reputation wherever it has been used, based entirely on its own ments, which its superior efficacy has alone sustained. The unfortunate victim of hereditary discase, with swotten glands, contracted sinews, and hones half carious, has been restored to benth and vigor. The scrofulous patient, covered with ulcors, leaflesame to hunself and his attendants, has been made whole. Hundreds of persons, the had grouned hopelessly for years under cutaneous and glandular disorders, chrone thermatism, and many other complaints springing from a derangement of the secretice organs and the circulation, have been raised as it were from the cuck of disease, and now, with regenerated constitutions, gladly teatify to the efficacy of this inestimable preparation. The testimony of those who have been cured by its use, with their residences, has been published from time to time; and were it desirable, a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. The affiliant and there were have not been conclusively its inestimable value. clusively its inestimable value. The afflicted, and these who have not used this medicine, are invited to make a trial of its virtues, and appropriate to themselves the enefits which it alone can bestow. Messes, Saxus — Gentlemen — I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the curo of an obstitute Cascenors. Under on the least tenefit I have received in the curo of an obstitute Cascenors. Under on this by a regular and skilful physician, assisted by the advice and consisted of one of our most able and experienced surgeons, arithout the least benefit whatever. All the virtous methods of treating cancer were resorted to, for fire weeks in succession my broast was burned with causit three methods for six it was daily syrraged with a weak solution of intro send, and the cavity or internal ulters was so large that it held over an ounce of the solution. The doctor probed the ulter and examined the bone, and said the discase was advancing rapsily to the loung, and if I did not get speedy reine by medicine or an operation, the result would be facil. I was advised to inve the broast laid once and the beness sammed but finding no reine trom what had been done, and feeling I was rapidly retting worse. I almost despaired of recovery, and considered my case nearly hopeless.

Secing various testimonials and certificates of care by the use of Saxua Samara-attilla, in cases similar to my own, I concluded to try a few hottles, several of which were used, but, from the long deep sented character of my disease, probable of which were used, but, from the long deep sented character of my disease, probable of which were used, but, from the long deep sented character of my disease, probable to receive and or which were used, but, from the long deep sented character of my disease, probable of which were used, but, from the long deep sented character of my disease, probable of which were used, but, from the long deep sented character of my disease, probable of which were used, but, from the long deep sented character of my dise

LIVER COMPLAINT.

The following is an extract from a letter received from Rev. William Galusha Meeters Sance: —I have been afflicted with a severe pain in my said, occasioned by a diversed liver, for the last twenty years; suffering at times what language contout convey; but since taking your Saranaporilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last fateen menths. I whostly discarded all other medicae, and thoroughly true the Sarasaparilla, which I can resommend in fruth and sincerity to all those who are in any way afflicted with any species of scrofishors complaints. There have been some remarkable cures offered by its use in this strinity. Mrs. I Shaw, by the need of six tottles, was restored to better health than the last before enjoyed for ten years; and Mrs. W. Stevens, was industry cured by the use of a few bottles.

Yours truly,

CURE OF A SCROFULOUS AFFECTION OF THE EYES.

Messrs. Sanns:—Gentlemen—My little shaughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extended into her eyes, causing almost total blindness in one of them, and designing her whole face. I employed two physicians to attend her, who examined their atmost skill to give her relief, but it all proved uscless, and finally one of them remarked to me that he had known of some striking cures effected by Saxns' Saxsaparila, and advised me to try it. I obtained one bottle, which she commenced using, and hefore it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the discusse, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint.

Respectfully yours, GEORGE ROBINSON.
